SUMMARY

Passionate about data science, I have a solid understanding of data analytics, artificial intelligence, and machine learning. I am skilled in data analysis, building models, and drawing meaningful insights with modern data science methods. I have strong analytical thinking, problem-solving, and teamwork skills. I am eager to start a career using data-driven solutions to address real-world challenges.

TECHNICAL SKILLS

Programming Languages: Python, C++, Java, SQL, HTML, CSS ,JavaScript.

Deep Learning Frameworks: TensorFlow, PyTorch, Keras.

Libraries & Tools: NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn.

PROJECTS

Waste Image Classification System

Aug 2025

Deep Learning Project

Python, PyTorch, Vision Transformer

- Developed a waste classification model using Vision Transformer (ViT) with PyTorch.
- Applied image preprocessing, augmentation, and model training for improved classification accuracy.
- Implemented evaluation metrics and checkpoint training to improve model performance.

Agricultural Seasonal Advisory System

Sep 2025

Machine Learning Project

Python, Flask,Scikit-learn, XGBoost

- Built a stacking ensemble ML model (Random Forest, XGBoost, SVR + Huber Regressor) for crop yield prediction.
- Performed data preprocessing, feature encoding, and model evaluation for reliable predictions.
- Deployed the model using a Flask web app for real-time agricultural yield forecasting.

EDUCATION

Integrated M.Tech - Computer Science and Engineering (Data Science)

Aug 2022 – Jun 2027

VIT University,Vellore, Tamil Nadu, India

8.57 CGPA

12th Grade

2022

Sai Gururji Matric Hr. Sec. School, K.V.Kuppam, Vellore

88.3

CERTIFICATIONS

- Data Science with Python - educba
- Python course from Zero-to-Hero (Intermediate Level) - Udemy
- Prompt Engineering - Udemy
- Build a Local LLM Application using Python and Ollama. - Udemy
