

HOTEL ORDERING APPLICATION

SPRINT REPORT

SPRINT 1: 25.03.2026

SPRINT 2: 10.04.2026

CONTEXT:

First day of sprint 1	19.01.2026
Last day of sprint 1	25.03.2026
First day of sprint 2	27.03.2026
Last day of sprint 2	10.04.2026
Working days in sprint 1	65 days
Working days in sprint 2	15 days

TEAM MEMBERS:

NAME	REG. NO	ROLE IN THE SPRINT	PLANNED DAYS	WORKED DAYS
SANDHIYA SRI	22MID0148	SCRUM MASTER	45	45
DHARANIDHARAN.B	22MID0196	PRODUCT OWNER	10	12
GUNA.R	22MID0174	DEVELOPER	25	31
G.JAYARAM	22MID0210	DEVELOPER	30	35
BOOMIKA S	22MID0126	TESTER	10	14
KALAISELVI N	22MID0131	TESTER	10	14

Sprint 1 and Sprint 2

Internal Assessor

Sprint 1 and Sprint 2

Product Owner

Dharanidharan.B

1. USER STORIES (SPRINT-1):

ID	As a <type of user>	I want to <perform some task>	So that I can <achieve some goal>
1	Scrum Master	conduct daily standups	track team progress
2	Scrum Master	remove blockers for team members	ensure smooth workflow
3	Scrum Master	coordinate sprint planning	align team with sprint goal
4	Scrum Master	monitor sprint progress	ensure timely completion
5	Scrum Master	facilitate sprint review	validate completed work
6	Scrum Master	organize retrospectives	improve team performance
7	Product Owner	Define login and registration requirements	Ensure secure user on boarding
8	Product Owner	Prioritize authentication features	Deliver core functionality first
9	Product Owner	Define profile management requirements	Allow users to manage profile details
10	Product Owner	Define wallet functionality	Enable users to manage payments
11	Product Owner	Define order viewing requirements	Provide transparency to users
12	Product Owner	Plan sprint backlog	Ensure proper task allocation
13	Product Owner	Review completed features	Ensure they meet business requirements
14	Product Owner	Define order creation workflow	Enable customers to place orders
15	Product Owner	Define payment workflow	Ensure smooth transaction process
16	Product Owner	Define feedback system	Collect user satisfaction data
17	Developer	Implement login API	Enable user authentication
18	Developer	Build login UI	Provide user access interface
19	Developer	Develop registration functionality	Allow new user creation
20	Developer	Implement profile API	Manage user data

21	Developer	Build profile UI	Display user information
22	Developer	Implement wallet API	Manage user balance
23	Developer	Build wallet UI	Display and update balance
24	Developer	Develop order history API	Fetch previous balance
25	Developer	Build order UI	Display order details
26	Developer	Implement order creation features	Allow user to place orders
27	Developer	Implement order editing feature	Allow modification of orders
28	Developer	Develop payment integration	Enable transaction processing
29	Developer	Handle insufficient wallet balance	Allow partial payments
30	Developer	Implement feedback module	Collect user reviews
31	Tester	Test login functionality	Ensure valid authentication
32	Tester	Test invalid login scenarios	Ensure error handling works
33	Tester	Test registration flow	Ensure user creation works
34	Tester	Test profile viewing	Ensure correct data display
35	Tester	Test profile editing	Ensure updates work correctly
36	Tester	Test wallet balance display	Ensure accuracy of funds
37	Tester	Test add money features	Ensure wallet updates correctly
38	Tester	Test order history	Ensure correct order retrieval
39	Tester	Test order details view	Ensure details information display
40	Tester	Test order creation	Ensure orders can be placed
41	Tester	Test order editing	Ensure modification work
42	Tester	Test payment process	Ensure successful transaction
43	Tester	Test feedback submission	Ensure feedback is recorded

USER STORIES (SPRINT-2):

ID	As a	I want to	So that I can
1	Product Owner	define food search filters (meal type, cuisine, etc.)	improve user experience in ordering
2	Product Owner	define item detail view (description, ingredients, cost)	help users make informed decisions
3	Product Owner	define order creation flow (add items, quantity)	allow users to place orders smoothly
4	Product Owner	define order modification before payment	allow users to update their order
5	Product Owner	define payment methods (wallet, bank, card)	support flexible payment options
6	Product Owner	define partial payment when wallet balance is low	allow uninterrupted payment
7	Product Owner	define feedback system after payment	collect user experience data
8	Developer	implement search functionality with filters	allow users to find food easily
9	Developer	implement item detail display	show complete information of food items
10	Developer	implement add to order and quantity selection	enable order placement

11	Developer	implement edit order functionality	enable adding/removing items
12	Developer	implement payment processing and integration	allow users to complete payment
13	Developer	implement split payment logic	support multiple payment sources
14	Developer	implement feedback submission feature	allow users to give ratings and comments
15	Tester	test search results and filter accuracy	ensure correct items are displayed
16	Tester	test item detail visibility and correctness	ensure accurate information display
17	Tester	test order creation with multiple items	ensure correct order processing
18	Tester	test order editing functionality	ensure updates reflect correctly
19	Tester	test payment success and failure scenarios	ensure reliable transactions
20	Tester	test partial payment functionality	ensure correct amount deduction
21	Tester	test feedback submission and storage	ensure feedback is recorded correctly

2. PRODUCT BACKLOG (SPRINT-1):

Ref	Description	Type	Role	Group	Relative Value	Initial Estimate	Adjust Factor	Estimate	Release	Sprint	Status
1	User login	Feature	Product Owner	Login	3	5	1	5	1	1	Completed
2	User registration	Feature	Product Owner	Registration	3	5	1.2	6	1	1	Completed
3	Validate login	Feature	Product Owner	Login	3	3	1	3	1	1	Completed

3. ITERATIVE PLANNING (SPRINT-1):

Iteration Planning Done With The Product Owner

Iteration planning for **Sprint 1** was conducted with the Product Owner to prioritize backlog items and select high-priority features.

- **Introduction** Sprint 1 focused on core features: Login, Registration, Profile Management, Wallet, and Order Viewing.
- **Vision and Roadmap** Sprint 1 focused on core features: Login, Registration, Profile Management, Wallet, and Order Viewing.
- **Number of user stories fit** Out of 43 user stories, high-priority stories were selected for Sprint 1.
- **Current Status**
 - **Completed:** Login, Registration, Profile, Wallet, Order Viewing
 - **Pending:** KYC validation, Order creation, Order editing
- **Iteration Theme / Name** Sprint 1 – Core Feature Implementation
- **Prior Data** No prior sprint data available, as this is the first sprint.
- **Dates** Sprint 1 Duration: **19.01.2026 – 25.03.2026**
- **Capacity** Team included Developers, Testers, and Scrum Master working throughout Sprint 1.
- **Issues / Logistics** KYC pending, order features incomplete, validation issues present.

- **DOD** KYC pending, order features incomplete, validation issues present.
- **Backlog Extract**
 - **Selected:** Login, Registration, Profile, Wallet, Order Viewing
 - **Pending:** KYC validation, Order creation, Order editing
- **Tasking**
 - **Developers:** API + UI implementation
 - **Testers:** Executed 56 test cases
 - **Scrum Master:** Planning, monitoring, coordination
- **Issues and Risks** Security risks, incomplete features, dependency on backend APIs.
- **Dependencies and Assumptions** Backend APIs, database connectivity, and team availability ensured.
- **Commitment** Team committed to delivering all core features in Sprint 1.
- **Actions** Fix bugs, complete pending features, improve validation.
- **Retrospect** Improve validation, feature completeness, and planning.

Are there any extra activities specific to your team or process that you need?

Daily Scrum meetings, continuous testing, and bug tracking.

Provide a range estimate for how long each selected activity will take for your team.

Time Estimation

Planning – 10 day

Development – 31 days

Testing – 15 days

Bug Fixing – 3 days

Total: 51 days

ITERATION PLANNING (SPRINT-2):

Iteration Planning Done With The Product Owner

Iteration planning for Sprint 2 was conducted with the Product Owner to prioritize backlog items and implement advanced features.

► Introduction

Sprint 2 focused on advanced features: Order Creation, Order Editing, Payment Processing, Partial Payment, and Feedback System.

► Vision and Roadmap

Sprint 2 aimed to complete the end-to-end ordering workflow including search, ordering, payment, and feedback.

► Number of User Stories Fit

21 user stories (US_01 to US_21) were selected based on priority and Sprint 1 pending work.

► Current Status

- Completed: Search, Item Details, Order Creation, Order Editing, Payment
- Pending: Partial Payment improvements, Feedback enhancements

► Iteration Theme / Name

Sprint 2 – Order & Payment Implementation

► Prior Data

Based on Sprint 1, pending features like order creation and editing were carried forward.

► **Dates**

Sprint 2 Duration: 27.03.2026 – 10.04.2026 (15 Days)

► **Capacity**

Team included Developers, Testers, Product Owner, and Scrum Master working actively during the 15-day sprint.

► **Issues / Logistics**

- Payment gateway integration delays
- Wallet synchronization issues
- Minor UI bugs

► **DOD (Definition of Done)**

- Order placement and editing completed
- Payment successful using multiple methods
- Feedback system available
- All major test cases passed

► **Backlog Extract**

- Selected: Search, Item Details, Order Creation, Order Editing, Payment, Partial Payment, Feedback
- Pending: Minor improvements in feedback and payment

► **Tasking**

- Developers: Implemented order management, payment integration, UI updates
- Testers: Tested ordering, payment, and feedback modules
- Scrum Master: Managed sprint execution and coordination

► **Issues and Risks**

- Payment failures due to API issues
- Dependency on external payment systems
- Edge cases in partial payment

► **Dependencies and Assumptions**

- Payment APIs available
- Backend stable
- Team available throughout sprint

► **Commitment**

Team committed to completing full ordering and payment functionality within 15 days.

► **Actions**

- Fix payment bugs
- Improve UI performance
- Enhance partial payment logic

► Retrospect

- Improve testing for payment flows
- Better handling of edge cases
- Stronger frontend-backend coordination

► Extra Activities

Daily Scrum meetings, continuous testing, bug tracking, and payment validation.

► Time Estimation (Adjusted for 15 Days)

Activity	Duration
Planning	2 days
Development	7 days
Testing	4 days
Bug Fixing	2 days
Total	15 days

4. DAILY SCRUM (SPRINT-1):

Unique ID	User Stories	Particulars (Today's Work - Date)	Assigner	Reporter (Scrum Master)	Present / Absent	Status	Resolution	Created	Due	Fix Version	Product Backlog
1	Define authentication flow	Finalized login requirements	Dharanidharan B	Sandhiya Sri	Present	Completed	Resolved	19-01-2026	20-01-2026	1	Authentication
2	Registration validation rules	Defined validation rules and error handling	Dharanidharan B	Sandhiya Sri	Present	Completed	Resolved	23-01-2026	24-01-2026	1	Authentication

4	KYC workflow definition	Defined KYC approval flow and pending status	Dharanidharan B	Sandhiya Sri	Present	Pending	Resolved	06-02-2026	07-02-2026	1	Profile Management
5	Wallet feature definition	Finalized wallet balance and funding requirements	Dharanidharan B	Sandhiya Sri	Present	Completed	-	14-02-2026	15-02-2026	1	Wallet
6	Order history requirements	Defined order list and detail view requirements	Dharanidharan B	Sandhiya Sri	Present	Completed	Resolved	26-02-2026	27-02-2026	1	Order Management
7	Sprint 1 review	Reviewed completed features and validated acceptance criteria	Dharanidharan B	Sandhiya Sri	Present	Completed	Resolved	12-03-2026	13-03-2026	1	Sprint Review
8	Sprint 2 planning	Prioritized backlog for order and payment features	Dharanidharan B	Sandhiya Sri	Present	Completed	Resolved	13-03-2026	14-03-2026	1	Planning
9	Order creation flow	Defined order creation, search and cart flow	Dharanidharan B	Sandhiya Sri	Present	Completed	Resolved	14-03-2026	16-03-2026	1	Order Management
10	Payment workflow	Defined wallet and payment logic	Dharanidharan B	Sandhiya Sri	Present	Completed	Resolved	15-03-2026	18-03-2026	1	Payment
11	Feedback system	Defined feedback criteria after payment	Dharanidharan B	Sandhiya Sri	Present	Completed	Resolved	19-03-2026	20-03-2026	1	Feedback

12	Sprint monitoring	Clarified development and testing queries during execution	Dharanidharan B	Sandhiya Sri	Present	Completed	Resolved	23-03-2026	25-03-2026	1	Monitoring
13	Design login module	Created backend API for user login with validation	G Jayaram	Sandhiya Sri	Present	Completed	Resolved	20-01-2026	24-01-2026	1	Authentication
14	Login user interface	Created login screen and integrated with backend API	Guna R	Sandhiya Sri	Present	Completed	Resolved	24-01-2026	27-01-2026	1	Authentication
15	Registration API and database	Created endpoint for registration and database setup	G Jayaram	Sandhiya Sri	Present	Completed	Resolved	25-01-2026	31-01-2026	1	Authentication
16	Registration user interface	Created registration page with validation and API integration	Guna R	Sandhiya Sri	Present	Completed	Resolved	02-02-2026	03-02-2026	1	Authentication
17	Profile API	Created API for profile management	G Jayaram	Sandhiya Sri	Present	Completed	Resolved	01-02-2026	06-02-2026	1	Profile Management
18	Profile user interface	Implemented user interface to display profile information	Guna R	Sandhiya Sri	Present	Completed	Resolved	05-02-2026	10-02-2026	1	Profile Management
19	Update profile API	Created API to update profile with KYC validation	G Jayaram	Sandhiya Sri	Present	Completed	Resolved	07-02-2026	14-02-2026	1	Profile Management
20	Edit profile user interface	Created user interface to edit profile details	Guna R	Sandhiya Sri	Present	Completed	Resolved	11-02-2026	16-02-2026	1	Profile Management
21	Create wallet balance API	Developed API to get current wallet balance for users	G Jayaram	Sandhiya Sri	Present	Completed	Resolved	15-02-2026	20-02-2026	1	Wallet
22	Build wallet balance user interface	Implemented user interface to display wallet balance	Guna R	Sandhiya Sri	Present	Completed	Resolved	17-02-2026	22-02-2026	1	Wallet
23	Add money API	Created functionality to add money to wallet	G Jayaram	Sandhiya Sri	Present	Completed	Resolved	21-02-2026	26-02-2026	1	Wallet

24	Add money user interface	Created user interface to add money to wallet	Guna R	Sandhiya Sri	Present	Completed	Resolved	23-02-2026	28-02-2026	1	Wallet
25	Develop order list and details API	Created API to fetch list of user orders and order details	G Jayaram	Sandhiya Sri	Present	Completed	Resolved	27-02-2026	03-03-2026	1	Order Management
26	Create order list user interface	Designed user interface to display list of orders and details	Guna R	Sandhiya Sri	Present	Completed	Resolved	01-03-2026	06-03-2026	1	Order Management
27	Backend integration and bug fixing	Integrated backend modules and fixed issues	G Jayaram	Sandhiya Sri	Present	Completed	Resolved	04-03-2026	09-03-2026	1	System Integration
28	Frontend integration and bug fixing	Integrated frontend modules and resolved issues	Guna R	Sandhiya Sri	Present	Completed	Resolved	07-03-2026	12-03-2026	1	System Integration
29	Login validation testing	Tested invalid login credentials handling	Boomika S, Kalai Selvi N	Sandhiya Sri	Present	Completed	Resolved	13-03-2026	13-03-2026	1	Error Handling
30	Registration testing	Tested user registration functionality	Boomika S, Kalai Selvi N	Sandhiya Sri	Present	Completed	Resolved	13-03-2026	13-03-2026	1	User Account Creation
31	Profile view testing	Tested profile display functionality	Boomika S, Kalai Selvi N	Sandhiya Sri	Present	Completed	Resolved	23-03-2026	23-03-2026	1	Display User Details
32	Profile edit testing	Tested profile update with KYC validation	Boomika S, Kalai Selvi N	Sandhiya Sri	Present	Completed	Resolved	23-03-2026	23-03-2026	1	Update User Information
33	Wallet balance testing	Tested wallet balance display	Boomika S, Kalai Selvi N	Sandhiya Sri	Present	Completed	Resolved	24-03-2026	24-03-2026	1	View Balance
34	Add money testing	Tested adding funds to wallet	Boomika S, Kalai Selvi N	Sandhiya Sri	Present	Completed	Resolved	24-03-2026	24-03-2026	1	Fund Wallet
35	View orders testing	Tested order list display	Boomika S, Kalai Selvi N	Sandhiya Sri	Present	Completed	Resolved	25-03-2026	25-03-2026	1	Order History
36	Order details testing	Tested viewing of order details	Boomika S, Kalai Selvi N	Sandhiya Sri	Present	Completed	Resolved	25-03-2026	25-03-2026	1	Order Information

37	Sprint planning coordination	Coordinated with Product Owner for requirement discussion	Sandhiya Sri	Sandhiya Sri	Present	Completed	Resolved	19-01-2026	19-01-2026	1	Scrum Activities
38	Daily scrum facilitation	Conducted daily stand-up meetings and tracked progress	Sandhiya Sri	Sandhiya Sri	Present	Completed	Resolved	24-01-2026	24-01-2026	1	Scrum Activities
39	Team coordination	Coordinated between backend and frontend development	Sandhiya Sri	Sandhiya Sri	Present	Completed	Resolved	31-01-2026	31-01-2026	1	Scrum Activities
40	Sprint monitoring	Monitored sprint progress and ensured timely completion	Sandhiya Sri	Sandhiya Sri	Present	Completed	Resolved	14-02-2026	14-02-2026	1	Scrum Activities
41	Impediment tracking	Identified and tracked development and testing blockers	Sandhiya Sri	Sandhiya Sri	Present	Completed	Resolved	26-02-2026	26-02-2026	1	Scrum Activities
42	Sprint review facilitation	Facilitated sprint review and validated completed work	Sandhiya Sri	Sandhiya Sri	Present	Completed	Resolved	13-03-2026	13-03-2026	1	Scrum Activities
43	Testing coordination	Coordinated with testing team during validation phase	Sandhiya Sri	Sandhiya Sri	Present	Completed	Resolved	23-03-2026	23-03-2026	1	Scrum Activities
44	Final sprint monitoring	Ensured all modules were completed and verified	Sandhiya Sri	Sandhiya Sri	Present	Completed	Resolved	25-03-2026	25-03-2026	1	Scrum Activities

DAILY SCRUM (SPRINT-2):

Uni que ID	User Stories	Particulars (Today's work)	Assignee	Reporter (Scrum Master)	Present / Absent	Status	Resolutio n	Crea ted	Due	Fix Vers ion/s	Product Backlog
1	Forgot Password	Finalized requirements & acceptance criteria	Dharanidharan B	Sandhiya Sri	Presesnt	Completed	Resolved	3/26/2026	3/26/2026	2	Forgot Password

8	Payment	Defined payment authentication & flow	Dharanidharan B	Sandhiya Sri	Presesnt	Completed	Resolved	4/5/2026	4/5/2026	2	Payment
9	Feedback	Defined feedback form fields & submission rules	Dharanidharan B	Sandhiya Sri	Presesnt	Completed	Resolved	4/7/2026	4/7/2026	2	Feedback
10	Forgot Password	created forgot password fuctionality to let user to reset the password	G Jayaram	Sandhiya Sri	Presesnt	Completed	Resolved	3/27/2026	3/28/2026	2	Forgot Password

11	Forgot Password	Built forgot password UI and reset flow for users	Guna R	Sandhiya Sri	Presesnt	Completed	Resolved	3/28/2026	3/29/2026	2	Forgot Password
12	Menu Filters	Provided categorized menu API for veg and non-veg items	G Jayaram	Sandhiya Sri	Presesnt	Completed	Resolved	3/29/2026	3/29/2026	2	Menu
13	Menu Filters	Created menu page with dropdown filter for veg and non-veg categories	Guna R	Sandhiya Sri	Presesnt	Completed	Resolved	3/30/2026	3/30/2026	2	Menu
14	Detailed Menu	Stored and served item data with description, price, and ingredients	G Jayaram	Sandhiya Sri	Presesnt	Completed	Resolved	3/30/2026	4/1/2026	2	Menu
15	Detailed Menu	Displayed item details including description, cost, and ingredients	Guna R	Sandhiya Sri	Presesnt	Completed	Resolved	3/31/2026	4/1/2026	2	Menu
16	Place Order	Implemented order creation and storage functionality	G Jayaram	Sandhiya Sri	Presesnt	Completed	Resolved	4/2/2026	4/3/2026	2	Order Management
17	Place Order	Enabled users to select items and place orders	Guna R	Sandhiya Sri	Presesnt	Completed	Resolved	4/2/2026	4/3/2026	2	Order Management
18	Edit Order	Added logic to allow order updates only within 3-minute time limit	G Jayaram	Sandhiya Sri	Presesnt	Completed	Resolved	4/3/2026	4/4/2026	2	Order Management
19	Edit Order	Provided UI to modify orders within 3 minutes	Guna R	Sandhiya Sri	Presesnt	Completed	Resolved	4/3/2026	4/5/2026	2	Order Management
20	Order History	Retrieved and returned user's recent order data	G Jayaram	Sandhiya Sri	Presesnt	Completed	Resolved	4/4/2026	4/4/2026	2	Order Management
21	Order History	Displayed recent orders in order history page	Guna R	Sandhiya Sri	Presesnt	Completed	Resolved	4/5/2026	4/5/2026	2	Order Management

22	Wallet with Saved Card Details	Implemented secure storage and retrieval of card information	G Jayaram	Sandhiya Sri	Presesnt	Completed	Resolved	4/5/2026	4/6/2026	2	Wallet
23	Wallet with Saved Card Details	Created wallet section to save and use card details	Guna R	Sandhiya Sri	Presesnt	Completed	Resolved	4/6/2026	4/6/2026	2	Wallet
24	Payment with Account Password	Verified account password before processing payment	G Jayaram	Sandhiya Sri	Presesnt	Completed	Resolved	4/6/2026	4/7/2026	2	Payment
25	Payment with Account Password	Built UI for forget password and its verification	Guna R	Sandhiya Sri	Presesnt	Completed	Resolved	4/7/2026	4/8/2026	2	Payment
26	Feedback Form	Built feedback form for user input submission	G Jayaram	Sandhiya Sri	Presesnt	Completed	Resolved	4/8/2026	4/8/2026	2	Feedback
27	Feedback Form	Stored and managed user feedback data	Guna R	Sandhiya Sri	Presesnt	Completed	Resolved	4/9/2026	4/9/2026	2	Feedback
28	Order creation test	Tested order creation functionality (14-03-2026)	Boomika S, Kalai Selvi N	Sandhiya Sri	Present	Completed	Unresolved	3/14/2026	3/14/2026	2	Order Management
29	Payment workflow test	Tested payment processing scenarios (15-03-2026)	Boomika S, Kalai Selvi N	Sandhiya Sri	Present	Completed	Unresolved	3/15/2026	3/15/2026	2	Payment
30	Input validation test	Tested invalid quantity and input validation (16-03-2026)	Boomika S, Kalai Selvi N	Sandhiya Sri	Present	Completed	Unresolved	3/16/2026	3/16/2026	2	Validation
31	Order update test	Tested updating order with empty items (17-03-2026)	Boomika S, Kalai Selvi N	Sandhiya Sri	Present	Completed	Unresolved	3/17/2026	3/17/2026	2	Order Management
32	Feedback system test	Tested feedback submission after payment (19-03-2026)	Boomika S, Kalai Selvi N	Sandhiya Sri	Present	Completed	Resolved	3/19/2026	3/19/2026	2	Feedback
33	Test result review	Analyzed test results and identified defects (23-03-2026)	Boomika S, Kalai Selvi N	Sandhiya Sri	Present	Completed	Resolved	3/23/2026	3/23/2026	2	Testing
34	Wallet testing	Tested wallet operations including add, deduct, and validation (20-03-2026)	Boomika S, Kalai Selvi N	Sandhiya Sri	Present	Completed	Unresolved	3/20/2026	3/20/2026	2	Wallet

5. TEST CASES FOR SPRINT 1

HOTEL ORDERING APPLICATION						
Test Case ID: TC_LOGIN_01			Test Designed by: Boomika S, Kalaiselvi N			
Test Priority: High			Test Designed date: 13.03.2025			
Module Name: Login			Test Executed by: Boomika S, Kalaiselvi N			
Test Title: Verify login with valid email and password			Test Execution date: 13.03.2025			
Description: Test login functionality with valid credentials						
Pre-conditions: User has valid email and password						
Dependencies: Login API, Database						
Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Navigate to login page	URL	Login page displayed	Login page displayed	Pass	
2	Provide valid username	example@gmail.com	Email accepted	Email accepted	Pass	
3	Provide valid password	Password@123	Password accepted	Password accepted	Pass	
4	Click on Login button	-	User redirected to home page	User redirected successfully	Pass	
Post-Conditions: User is validated with database and successfully logged in. Session details stored.						

HOTEL ORDERING APPLICATION

Test Case ID: TC_LOGIN_04

Test Designed by: Boomika S, Kalaiselvi N

Test Priority: High

Test Designed date: 13.03.2025

Module Name: Login

Test Executed by: Boomika S, Kalaiselvi N

Test Title: Forgot password functionality

Test Execution date: 13.03.2025

Description: Test forgot password feature

Pre-conditions: User must be registered

Dependencies: Email service

Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Click Forgot Password	-	Reset option should open	Message shown: Will be done in Sprint-2	Fail	Feature not implemented

Post-Conditions: Password reset functionality not available.

HOTEL ORDERING APPLICATION

Test Case ID: TC_LOGIN_10

Test Designed by: Boomika S, Kalaiselvi N

Test Priority: High

Test Designed date: 13.03.2025

Module Name: Login

Test Executed by: Boomika S, Kalaiselvi N

Test Title: Multiple failed login attempts

Test Execution date: 13.03.2025

Description: Test account lock mechanism after multiple failed attempts

Pre-conditions: Valid user account exists

Dependencies: Authentication system

Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Enter incorrect password multiple times	5 attempts	Account should be locked after multiple failures	System continues to allow attempts and shows 'Login Failed'	Fail	No account lock implemented

Post-Conditions: Account is not locked despite multiple failed attempts.

HOTEL ORDERING APPLICATION

Test Case ID: TC_PROFILE_01

Test Designed by: Boomika S, Kalaiselvi N

Test Priority: Medium

Test Designed date: 23.03.2025

Module Name: Profile

Test Executed by: Boomika S, Kalaiselvi N

Test Title: Update sensitive fields without ID proof

Test Execution date: 23.03.2025

Description: Verify system requires ID proof for sensitive updates

Pre-conditions: User is logged in

Dependencies: Profile API

Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Navigate to profile update page	-	Profile page should be displayed	Profile page displayed	Pass	
2	Update sensitive fields (Name, DOB, Address)	Sample data	System should request ID proof	Error shown: ID proof required	Pass	Validation working

Post-Conditions: Sensitive fields are not updated without ID proof.

HOTEL ORDERING APPLICATION

Test Case ID: TC_PROFILE_02				Test Designed by: Boomika S, Kalaiselvi N		
Test Priority: High				Test Designed date: 23.03.2025		
Module Name: Profile				Test Executed by: Boomika S, Kalaiselvi N		
Test Title: KYC status transition				Test Execution date: 23.03.2025		
Description: Verify KYC status changes from Pending to Approved						
Pre-conditions: User has uploaded valid ID proof						
Dependencies: KYC verification system						
Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Upload valid ID proof and update profile	Valid ID	KYC status should change to Approved	Status remains Pending	Fail	Approval process missing
Post-Conditions: KYC status remains Pending, not updated to Approved.						

HOTEL ORDERING APPLICATION

Test Case ID: TC_PROFILE_05			Test Designed by: Boomika S, Kalaiselvi N			
Test Priority: High			Test Designed date: 23.03.2025			
Module Name: Profile			Test Executed by: Boomika S, Kalaiselvi N			
Test Title: Upload invalid file type			Test Execution date: 23.03.2025			
Description: Verify system rejects unsupported file types						
Pre-conditions: User is logged in						
Dependencies: File upload service						
Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Upload invalid file	file.exe	System should reject file	File accepted	Fail	Validation missing
Post-Conditions: Invalid file type accepted by system.						

HOTEL ORDERING APPLICATION

Test Case ID: TC_WALLET_03				Test Designed by: Boomika S, Kalaiselvi N		
Test Priority: High				Test Designed date: 24.03.2025		
Module Name: Wallet				Test Executed by: Boomika S, Kalaiselvi N		
Test Title: Add money with valid amount				Test Execution date: 24.03.2025		
Description: Verify wallet balance updates correctly						
Pre-conditions: User is logged in						
Dependencies: Payment system						
Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Navigate to wallet page	-	Wallet page displayed	Displayed	Pass	
2	Enter valid amount	1000	Amount accepted	Accepted	Pass	
3	Click Add Funds	-	Balance should increase	Balance updated	Pass	
Post-Conditions: Wallet balance updated successfully.						

HOTEL ORDERING APPLICATION

Test Case ID: TC_WALLET_09

Test Designed by: Boomika S, Kalaiselvi N

Test Priority: High

Test Designed date: 24.03.2025

Module Name: Wallet

Test Executed by: Boomika S, Kalaiselvi N

Test Title: Add new funding source

Test Execution date: 24.03.2025

Task	Model	Score	Model	Score
Description: Verify system prompts for new funding source details	gpt-4o	0.00	gpt-4o	0.00

Pre-conditions: User is logged in

Dependencies: Payment gateway

Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Select Add New Funding Source	-	System should prompt for card/bank details	System directly adds money	Fail	Missing validation step

Post-Conditions: Funding source not properly validated.

HOTEL ORDERING APPLICATION

Test Case ID: TC_ORDER_01				Test Designed by: Boomika S, Kalaiselvi N		
Test Priority: Medium				Test Designed date: 25.03.2025		
Module Name: Orders				Test Executed by: Boomika S, Kalaiselvi N		
Test Title: View previous orders				Test Execution date: 25.03.2025		
Description: Verify that user can view order history						
Pre-conditions: User has placed orders						
Dependencies: Order service						
Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Navigate to Orders page	-	Order list should be displayed	Orders displayed (ORD-001, ORD-002)	Pass	
Post-Conditions: User can view previous orders successfully.						

HOTEL ORDERING APPLICATION

Test Case ID: TC_ORDER_04				Test Designed by: Boomika S, Kalaiselvi N		
Test Priority: Medium				Test Designed date: 25.03.2025		
Module Name: Orders				Test Executed by: Boomika S, Kalaiselvi N		
Test Title: View order details				Test Execution date: 25.03.2025		
Description: Verify that user can view detailed order information						
Pre-conditions: Orders are available						
Dependencies: Order API						
Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Click on View Details for an order	ORD-001	Order details should be displayed	Order details displayed correctly	Pass	
Post-Conditions: User can view detailed order information successfully.						

HOTEL ORDERING APPLICATION

Test Case ID: TC_ORDER_02				Test Designed by: Boomika S, Kalaiselvi N		
Test Priority: High				Test Designed date: 06.04.2026		
Module Name: Order				Test Executed by: Boomika S, Kalaiselvi N		
Test Title: Create order with invalid quantity				Test Execution date: 06.04.2026		
Description: Verify system should not allow order with zero or negative quantity						
Pre-conditions: User logged in						
Dependencies: Order API						
Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Add item with invalid quantity	0 / -1	System should reject	Accepted invalid quantity	Fail	Validation missing
2	Place order	-	Order should not be created	Order created successfully	Fail	Critical bug
Post-Conditions: Invalid orders are created						

HOTEL ORDERING APPLICATION

Test Case ID: TC_PAYMENT_04

Test Designed by: Boomika S,
Kalaiselvi N

Test Priority: High

Test Designed date: 07.04.2026

Module Name: Payment

Test Executed by: Boomika S,
Kalaiselvi N

Test Title: Partial payment

Test Execution date: 07.04.2026

Description: Verify system supports partial payment using wallet and other source

Pre-conditions: User logged in with insufficient wallet balance

Dependencies: Payment API, Wallet system

Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Attempt payment using wallet + other source	Mixed payment	Payment should succeed	Partial payment not allowed	Fail	Feature missing

Post-Conditions: Payment not completed due to lack of partial payment support

HOTEL ORDERING APPLICATION

Test Case ID: TC_WALLET_13				Test Designed by: Boomika S, Kalaiselvi N		
Test Priority: High				Test Designed date: 08.04.2026		
Module Name: Wallet				Test Executed by: Boomika S, Kalaiselvi N		
Test Title: Deduct zero amount				Test Execution date: 08.04.2026		
Description: Verify system should not allow deduction of zero amount						
Pre-conditions: User logged in with wallet balance						
Dependencies: Wallet API						
Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Enter amount	0	System should reject	Amount deducted	Fail	Critical bug
Post-Conditions: Incorrect deduction behavior observed						

HOTEL ORDERING APPLICATION

Test Case ID: TC_ORDER_01				Test Designed by: Boomika S, Kalaiselvi N		
Test Priority: High				Test Designed date: 06.04.2026		
Module Name: Order				Test Executed by: Boomika S, Kalaiselvi N		
Test Title: Create order with valid items				Test Execution date: 06.04.2026		
Description: Verify order creation with valid items						
Pre-conditions: User logged in						
Dependencies: Order API						
Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Add valid items	Valid items	Items should be added	Items added	Pass	
2	Place order	-	Order should be created successfully	Order created successfully	Pass	
Post-Conditions: Order created successfully and stored in system						

HOTEL ORDERING APPLICATION

Test Case ID: TC_FEEDBACK_01				Test Designed by: Boomika S, Kalaiselvi N		
Test Priority: Medium				Test Designed date: 07.04.2026		
Module Name: Feedback				Test Executed by: Boomika S, Kalaiselvi N		
Test Title: Submit valid feedback				Test Execution date: 07.04.2026		
Description: Verify user can submit feedback with valid rating						
Pre-conditions: User logged in						
Dependencies: Feedback API						
Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Enter rating	1-5	Rating accepted	Accepted	Pass	
2	Submit feedback	Valid input	Feedback saved	Feedback submitted successfully	Pass	
Post-Conditions: Feedback stored successfully						

HOTEL ORDERING APPLICATION

Test Case ID: TC_FP_01				Test Designed by: Boomika S, Kalaiselvi N		
Test Priority: High				Test Designed date: 09.04.2026		
Module Name: Forgot Password				Test Executed by: Boomika S, Kalaiselvi N		
Test Title: Valid email request				Test Execution date: 09.04.2026		
Description: Verify reset link is sent for registered email						
Pre-conditions: User must be registered						
Dependencies: Email service, Authentication API						
Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Enter registered email	valid@email.com	Email accepted	Accepted	Pass	
2	Submit request	-	Reset link should be sent	Reset link sent successfully	Pass	
Post-Conditions: User receives password reset link						

HOTEL ORDERING APPLICATION

Test Case ID: TC_RP_02				Test Designed by: Boomika S, Kalaiselvi N		
Test Priority: High				Test Designed date: 10.04.2026		
Module Name: Reset Password				Test Executed by: Boomika S, Kalaiselvi N		
Test Title: Invalid token				Test Execution date: 10.04.2026		
Description: Verify system rejects password reset with invalid token						
Pre-conditions: User has requested password reset						
Dependencies: Authentication API, Token service						
Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Enter invalid token	invalid_token	System should reject	Error: Invalid or expired token	Pass	
2	Submit new password	Valid password	Password should not reset	Password not reset	Pass	
Post-Conditions: Password remains unchanged						

HOTEL ORDERING APPLICATION

Test Case ID: TC_PAYMENT_01				Test Designed by: Boomika S, Kalaiselvi N		
Test Priority: High				Test Designed date: 07.04.2026		
Module Name: Payment				Test Executed by: Boomika S, Kalaiselvi N		
Test Title: Successful payment				Test Execution date: 07.04.2026		
Description: Verify payment is successful with correct credentials						
Pre-conditions: User logged in with sufficient balance						
Dependencies: Payment API, Wallet system						
Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Enter correct password	Valid password	Password accepted	Accepted	Pass	
2	Click pay	-	Payment successful	Payment successful	Pass	
Post-Conditions: Payment completed and balance updated						

HOTEL ORDERING APPLICATION

Test Case ID: TC_WALLET_03				Test Designed by: Boomika S, Kalaiselvi N		
Test Priority: High				Test Designed date: 08.04.2026		
Module Name: Wallet				Test Executed by: Boomika S, Kalaiselvi N		
Test Title: Add valid amount				Test Execution date: 08.04.2026		
Description: Verify money is added successfully to wallet with valid inputs						
Pre-conditions: User logged in with valid payment method						
Dependencies: Wallet API, Payment gateway						
Step	Test Steps	Test Data	Expected Result	Actual Result	Status	Notes
1	Enter valid amount and card details	Valid amount	Money should be added	Accepted	Pass	
2	Confirm transaction	-	Balance should update	Balance updated	Pass	
Post-Conditions: Wallet balance increased correctly						

6. TEST REPORT (SPRINT-1):

LOGIN MODULE:

Test Case ID	Module	Scenario	Steps	Expected Result	Actual Result	Status	Date	Tester
TC_LOGIN_01	Login	Valid login	Enter valid email & password and click login	User should be redirected to home page	User redirected successfully	Pass	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_02	Login	Invalid password	Enter valid email & incorrect password	System should display error message	Error message displayed	Pass	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_03	Login	Invalid email	Enter invalid email & valid password	System should display error message	Error message displayed	Pass	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_04	Login	Forgot password functionality	Click on "Forgot Password"	User should be able to reset password	Feature not implemented (Sprint-2)	Fail	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_05	Login	Empty fields	Click login without entering data	Validation message should be shown	Validation message displayed	Pass	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_06	Login	OTP Login	Enter OTP for login	User should be able to login using OTP	OTP feature not implemented	Not Applicable	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_07	Login	Invalid OTP	Enter incorrect OTP	Appropriate error message should be displayed	OTP feature not implemented	Not Applicable	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_08	Login	Expired OTP	Enter expired OTP	System should show OTP expired message	OTP feature not implemented	Not Applicable	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_09	Login	SQL Injection	Enter SQL injection input in email field	System should prevent unauthorized access	Input rejected due to validation	Pass	13.03.2025	Boomika.S, Kalaiselvi.N

TC_LOGIN_10	Login	Multiple failed attempts	Enter incorrect password multiple times	System should lock account after repeated failures	No restriction applied	Fail	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_11	Login	Password case sensitivity	Enter correct email & wrong case password	Login should fail	Login failed	Pass	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_12	Login	Network failure	Disconnect internet and attempt login	System should display network error message	Not applicable (local server)	Not Applicable	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_13	Login	JWT Token generation	Login with valid credentials	Token should be generated	Token generated successfully	Pass	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_14	Login	Valid non-Gmail email	Enter kalai@yahoo.com	Email should be accepted	Email accepted	Pass	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_15	Login	Valid email format	Enter boo@abc.com	Email should be accepted as valid format	Email accepted successfully	Pass	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_16	Login	Invalid email format	Enter @abc.com	Validation error should be shown	Input rejected with validation error	Fail	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_17	Login	Invalid email (no @)	Enter boomika	Validation error should be shown	Error displayed	Pass	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_18	Login	Missing domain	Enter kalai@	Validation error should be shown	Error displayed	Pass	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_19	Login	Special characters in email	Enter boomika@@gmail.com	Validation error should be shown	Error displayed	Pass	13.03.2025	Boomika.S, Kalaiselvi.N
TC_LOGIN_20	Login	Unregistered email	Enter unregistered email	System should display login failed message	Message not displayed	Fail	13.03.2025	Boomika.S, Kalaiselvi.N

PROFILE MODULE:

Test Case ID	Module	Scenario	Steps	Expected Result	Actual Result	Status	Date	Tester
TC_PROFILE_01	Profile	Update sensitive fields without ID	Update name/DOB/address without ID	System should request ID proof	Error shown	Pass	23.03.2025	Boomika.S, Kalaiselvi.N
TC_PROFILE_02	Profile	KYC status transition	Upload ID and update profile	KYC should change to Approved	Status remains Pending	Fail	23.03.2025	Boomika.S, Kalaiselvi.N
TC_PROFILE_03	Profile	Update non-sensitive fields	Update preferences only	Profile should update successfully	Updated successfully	Pass	23.03.2025	Boomika.S, Kalaiselvi.N
TC_PROFILE_04	Profile	Update with valid ID proof	Upload valid file	Profile updated with KYC pending	Updated successfully	Pass	23.03.2025	Boomika.S, Kalaiselvi.N
TC_PROFILE_05	Profile	Upload invalid file type	Upload .txt or .exe file	System should reject invalid file	File accepted	Fail	23.03.2025	Boomika.S, Kalaiselvi.N
TC_PROFILE_06	Profile	Upload large file	Upload very large file	System should restrict file size	No validation applied	Fail	23.03.2025	Boomika.S, Kalaiselvi.N
TC_PROFILE_07	Profile	Update with empty data	Submit empty update request	System should not update data	No update performed	Pass	23.03.2025	Boomika.S, Kalaiselvi.N
TC_PROFILE_08	Profile	Valid password update	Enter new valid password	Password should update successfully	Updated successfully	Pass	23.03.2025	Boomika.S, Kalaiselvi.N
TC_PROFILE_09	Profile	Weak password	Enter weak password	System should reject weak password	Accepted	Fail	23.03.2025	Boomika.S, Kalaiselvi.N
TC_PROFILE_10	Profile	Password hashing	Update password	Password should be stored securely	Stored securely	Pass	23.03.2025	Boomika.S, Kalaiselvi.N
TC_PROFILE_11	Profile	Invalid data input	Enter incorrect data type	System should reject invalid input	Accepted	Fail	23.03.2025	Boomika.S, Kalaiselvi.N

WALLET MODULE:

Test Case ID	Module	Scenario	Steps	Expected Result	Actual Result	Status	Date	Tester
TC_WALLET_01	Wallet	View wallet balance	Open wallet page	Balance should display correctly	Balance shown correctly	Pass	24.03.2025	Boomika.S, Kalaiselvi.N
TC_WALLET_02	Wallet	Unauthorized access	Remove token and refresh page	System should block access	Redirected to login	Pass	24.03.2025	Boomika.S, Kalaiselvi.N
TC_WALLET_03	Wallet	Add money	Enter valid amount and submit	Balance should increase	Balance updated	Pass	24.03.2025	Boomika.S, Kalaiselvi.N
TC_WALLET_04	Wallet	Add zero amount	Enter 0 and submit	Error message should be shown	Error displayed	Pass	24.03.2025	Boomika.S, Kalaiselvi.N
TC_WALLET_05	Wallet	Add negative amount	Enter negative amount	Error message should be shown	Error displayed	Pass	24.03.2025	Boomika.S, Kalaiselvi.N
TC_WALLET_06	Wallet	Add large amount	Enter large value	Amount should be added successfully	Balance updated	Pass	24.03.2025	Boomika.S, Kalaiselvi.N
TC_WALLET_07	Wallet	Invalid input type	Enter text instead of number	System should reject input	Validation error shown	Pass	24.03.2025	Boomika.S, Kalaiselvi.N
TC_WALLET_08	Wallet	Funding source selection	Select funding source	Selected option should be applied	Applied correctly	Pass	24.03.2025	Boomika.S, Kalaiselvi.N
TC_WALLET_09	Wallet	Add new funding source	Add new funding source and submit	System should prompt for details	Details not requested	Fail	24.03.2025	Boomika.S, Kalaiselvi.N
TC_WALLET_10	Wallet	Balance update after add	Refresh after adding money	Balance should persist	Updated correctly	Pass	24.03.2025	Boomika.S, Kalaiselvi.N
TC_WALLET_11	Wallet	Multiple transactions	Perform multiple transactions	Balance should accumulate correctly	Calculated correctly	Pass	24.03.2025	Boomika.S, Kalaiselvi.N
TC_WALLET_12	Wallet	UI display format	Check currency format	Should display correct format	Format displayed correctly	Pass	24.03.2025	Boomika.S, Kalaiselvi.N
TC_WALLET_13	Wallet	Decimal transaction	Enter decimal amount	System should accept decimal values	Accepted correctly	Pass	24.03.2025	Boomika.S, Kalaiselvi.N

ORDER MODULE:

Test Case ID	Module	Scenario	Steps	Expected Result	Actual Result	Status	Date	Tester
TC_ORDER_01	Orders	View previous orders	Open orders page	Orders should be displayed	Orders displayed	Pass	25.03.2025	Boomika.S, Kalaiselvi.N
TC_ORDER_02	Orders	Order list format	Check order ID and date	Should display correct format	Displayed correctly	Pass	25.03.2025	Boomika.S, Kalaiselvi.N
TC_ORDER_03	Orders	No orders scenario	Open orders page with no orders	Should show "No orders available"	Not testable	Not Applicable	25.03.2025	Boomika.S, Kalaiselvi.N
TC_ORDER_04	Orders	View order details	Click "View Details"	Details should be displayed	Displayed correctly	Pass	25.03.2025	Boomika.S, Kalaiselvi.N
TC_ORDER_05	Orders	Verify order total	Check total amount	Should display correct total	Rs. 450 displayed	Pass	25.03.2025	Boomika.S, Kalaiselvi.N
TC_ORDER_06	Orders	Verify order items	Check items list	All items should be displayed	Displayed correctly	Pass	25.03.2025	Boomika.S, Kalaiselvi.N
TC_ORDER_07	Orders	Close order details	Click close button	Details should be hidden	Closed successfully	Pass	25.03.2025	Boomika.S, Kalaiselvi.N
TC_ORDER_08	Orders	New order button disabled	Click new order button	Button should be disabled	Disabled	Not Applicable	25.03.2025	Boomika.S, Kalaiselvi.N
TC_ORDER_09	Orders	Edit order button disabled	Click edit order	Button should be disabled	Disabled	Not Applicable	25.03.2025	Boomika.S, Kalaiselvi.N
TC_ORDER_10	Orders	Multiple order selection	Select multiple orders	Latest selection should display	Displayed correctly	Pass	25.03.2025	Boomika.S, Kalaiselvi.N
TC_ORDER_11	Orders	Re-click same order	Click same order multiple times	UI should not duplicate	Works correctly	Pass	25.03.2025	Boomika.S, Kalaiselvi.N
TC_ORDER_12	Orders	Scroll behavior	Scroll page	UI should remain stable	Works properly	Pass	25.03.2025	Boomika.S, Kalaiselvi.N

TEST REPORT (SPRINT-2):

Test Case ID	Module	Scenario	Steps	Expected Result	Actual Result	Status	Date	Tester
TC_ORDER_01	Order	Create order with valid items	Add items and place order	Order should be created successfully	Order created successfully	Pass	06.04.2026	Boomika S, Kalaiselvi N
TC_ORDER_02	Order	Create order with empty/invalid quantity	Send 0 or negative quantity	System should reject order	Order created successfully even with zero and negative quantity. No validation error shown	Fail	06.04.2026	Boomika S, Kalaiselvi N
TC_ORDER_03	Order	Update existing order	Modify items and update	Order should update successfully	Order updated successfully	Pass	06.04.2026	Boomika S, Kalaiselvi N
TC_ORDER_04	Order	Update order with empty items	Send empty list	System should reject update	Order updated successfully even with empty or invalid items. No validation error shown	Fail	06.04.2026	Boomika S, Kalaiselvi N
TC_ORDER_05	Order	View order history	Fetch user orders	Orders should be displayed	Orders fetched successfully	Pass	06.04.2026	Boomika S, Kalaiselvi N
TC_PAYMENT_01	Payment	Successful payment	Enter correct password and pay	Payment should succeed	Payment successful	Pass	07.04.2026	Boomika S, Kalaiselvi N
TC_PAYMENT_02	Payment	Incorrect password	Enter wrong password	Payment should be denied	Error: Incorrect Password. Payment Denied	Pass	07.04.2026	Boomika S, Kalaiselvi N
TC_PAYMENT_03	Payment	Pay using wallet only	Use wallet balance	Payment should complete	Payment successful	Pass	07.04.2026	Boomika S, Kalaiselvi N
TC_PAYMENT_04	Payment	Partial payment	Wallet insufficient + other source	Payment should split and succeed	Doesn't allow partial payment.	Fail	07.04.2026	Boomika S, Kalaiselvi N
TC_PAYMENT_05	Payment	Insufficient funds	Wallet + other source insufficient	Payment should fail	Error message returned	Pass	07.04.2026	Boomika S, Kalaiselvi N
TC_PAYMENT_06	Payment	Missing payment source	No wallet or other source	System should reject	Payment failed	Pass	07.04.2026	Boomika S, Kalaiselvi N

TC_FEEDBACK_01	Feedback	Submit valid feedback	Enter ratings (1–5) and submit	Feedback should be saved	Feedback submitted successfully	Pass	07.04.2026	Boomika S, Kalaiselvi N
TC_FEEDBACK_02	Feedback	Rating below range	Enter rating = 0	System should reject	Error: Ratings must be between 1 and 5	Pass	07.04.2026	Boomika S, Kalaiselvi N
TC_FEEDBACK_03	Feedback	Rating above range	Enter rating = 6	System should reject	Error shown	Pass	07.04.2026	Boomika S, Kalaiselvi N
TC_FEEDBACK_04	Feedback	Missing ratings	Skip fields	System should reject	Validation error	Pass	07.04.2026	Boomika S, Kalaiselvi N
TC_FEEDBACK_05	Feedback	Submit feedback with comments	Add comments	Feedback should save with comments	Feedback saved	Pass	07.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_01	Wallet	View wallet balance	Click wallet balance	Correct balance should be displayed	Balance displayed correctly	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_02	Wallet	Unauthorized access	Access without login	System should deny access	Unauthorized error	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_03	Wallet	Add valid amount	Enter valid amount and card details	Money should be added	Balance updated	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_04	Wallet	Add zero amount	Enter amount = 0	System should reject	Error: Amount must be greater than 0	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_05	Wallet	Add negative amount	Enter negative amount	System should reject	Error shown	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_06	Wallet	Invalid CVV	Enter CVV < 3 digits	System should reject	Error: Invalid CVV format	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_07	Wallet	Invalid card number	Enter wrong card number	System should reject	Error: Invalid Card Number	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_08	Wallet	Add money using saved card	Use masked card	Payment should succeed	Money added	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_09	Wallet	Wrong expiry for saved card	Enter incorrect expiry	Payment should fail	Error: Incorrect Expiry Date	Pass	08.04.2026	Boomika S, Kalaiselvi N

TC_WALLET_10	Wallet	Add new card	Enter new card details	Card should be saved & money added	Card saved successfully	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_11	Wallet	Deduct valid amount	Enter valid amount	Amount should be deducted	Balance reduced	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_12	Wallet	Deduct more than balance	Enter high amount	System should reject	Error: Insufficient balance	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_13	Wallet	Deduct zero amount	Enter 0	System should reject	System accepted and deduced the zero amount	Fail	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_14	Wallet	View transactions	Fetch transaction history	Transactions should be displayed	Transactions shown	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_15	Wallet	Transaction format	Verify transaction fields	Should show type, amount, date	Data displayed correctly	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_16	Wallet	View saved cards	Fetch cards	Masked card numbers should display	Masked cards shown	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_17	Wallet	Card masking	Check card number format	Only last 4 digits visible	Proper masking applied	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_18	Wallet	Card filtering	Fetch by card type	Only selected type shown	Correct cards displayed	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_19	Wallet	CVV storage check	Add card	CVV should not be stored	CVV not stored	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_20	Wallet	Encryption check	Save card	Card should be encrypted	Data encrypted	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_WALLET_21	Wallet	Invalid card format (letters)	Enter alphabets in card number	System should reject	Error shown	Pass	08.04.2026	Boomika S, Kalaiselvi N
TC_FP_01	Forgot Password	Valid email request	Enter registered email	Reset link should be sent	Reset link sent successfully	Pass	09.04.2026	Boomika S, Kalaiselvi N

TC_FP_02	Forgot Password	Unregistered email	Enter email not in system	System should reject	Error: Email is not registered	Pass	09.04.2026	Boomika S, Kalaiselvi N
TC_FP_03	Forgot Password	Empty email field	Submit without email	Validation error	Error shown	Pass	09.04.2026	Boomika S, Kalaiselvi N
TC_FP_04	Forgot Password	Invalid email format	Enter wrong format	System should reject	Validation error	Pass	09.04.2026	Boomika S, Kalaiselvi N
TC_FP_05	Forgot Password	Multiple requests	Request reset multiple times	System should handle safely	Multiple emails sent	Pass	09.04.2026	Boomika S, Kalaiselvi N
TC_RP_01	Reset Password	Valid token + password	Use valid token and new password	Password should reset successfully	Password reset successful	Pass	10.04.2026	Boomika S, Kalaiselvi N
TC_RP_02	Reset Password	Invalid token	Use wrong token	System should reject	Error: Invalid or expired token	Pass	10.04.2026	Boomika S, Kalaiselvi N
TC_RP_03	Reset Password	Expired token	Use expired token	System should reject	Error shown	Pass	10.04.2026	Boomika S, Kalaiselvi N
TC_RP_04	Reset Password	Weak password	Enter weak password	System should reject	Validation error	Pass	10.04.2026	Boomika S, Kalaiselvi N
TC_RP_05	Reset Password	Empty password	Submit empty password	System should reject	Error shown	Pass	10.04.2026	Boomika S, Kalaiselvi N
TC_RP_06	Reset Password	Password hashing	Reset password	Password should be stored securely	Password hashed	Pass	10.04.2026	Boomika S, Kalaiselvi N

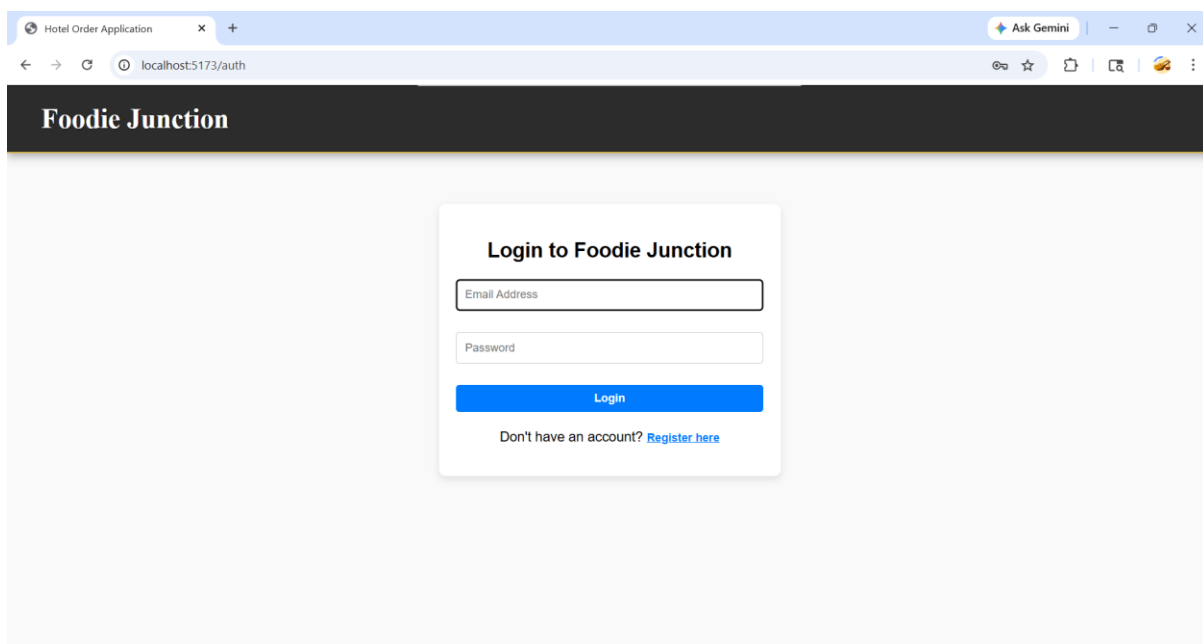

7. CONTENTS AND ASSESSMENT

Points Planned: 70

Points Earned: 54

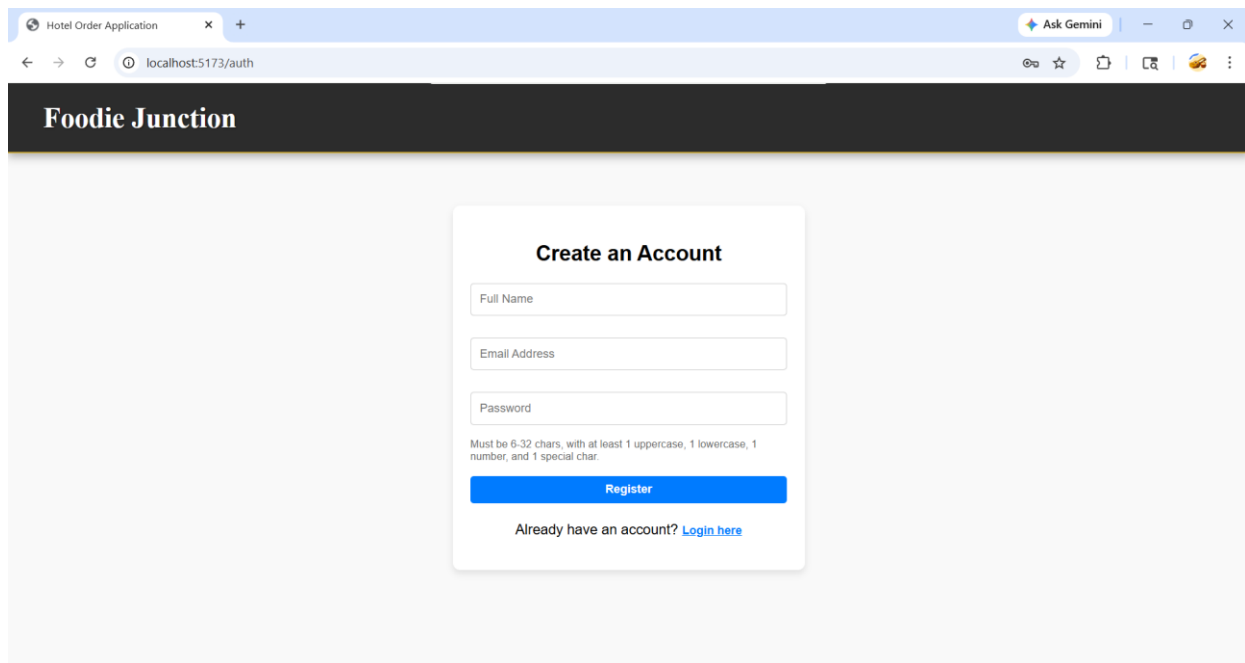

Story	Points	Result
User Authentication (Login + Registration)	11	Finished
Login Validation	3	Finished
Profile Management (View + Edit + KYC)	20	Finished
Wallet Management (View + Add Money)	14	Finished
Order Viewing (History + Details)	6	Finished
Create Order	10	Not Finished (Sprint-2)
Edit Order	6	Not Finished (Sprint-2)

8. SPRINT 1 IMPLEMENTATION

The screenshot displays a web browser window with the title 'Hotel Order Application' and the address bar showing 'localhost:5173/auth'. The page features a dark header with the text 'Foodie Junction'. In the center, there is a white login box titled 'Login to Foodie Junction'. This box contains two input fields: 'Email Address' and 'Password'. Below these fields is a blue button labeled 'Login'. At the bottom of the login box, there is a link that says 'Don't have an account? Register here'.

Figure 1: Login Interface for Hotel Ordering Application

The screenshot shows a web browser window with the address bar displaying 'localhost:5173/auth'. The page has a dark header with the 'Foodie Junction' logo. The main content area features a white 'Create an Account' form. The form includes three input fields: 'Full Name', 'Email Address', and 'Password'. Below the password field, a note specifies: 'Must be 6-32 chars, with at least 1 uppercase, 1 lowercase, 1 number, and 1 special char.' A blue 'Register' button is positioned below the form. At the bottom of the form, there is a link that says 'Already have an account? [Login here](#)'.

Figure 2: User Registration Page for Hotel Ordering Application

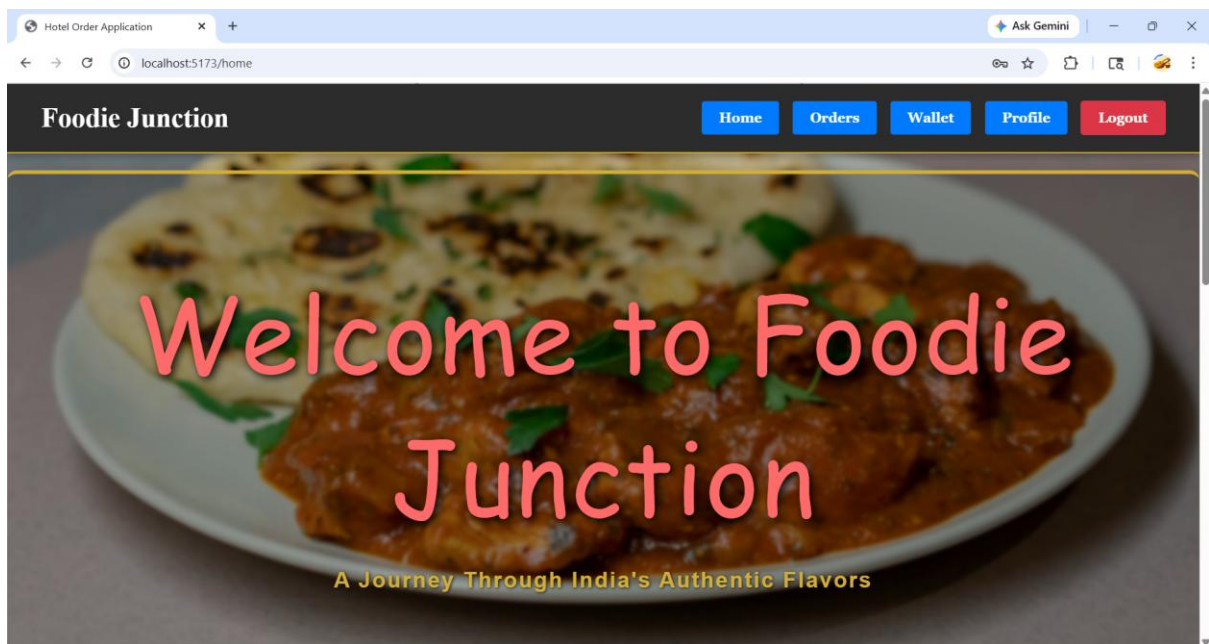

Figure 3: Home Page Welcome Interface for Hotel Ordering Application

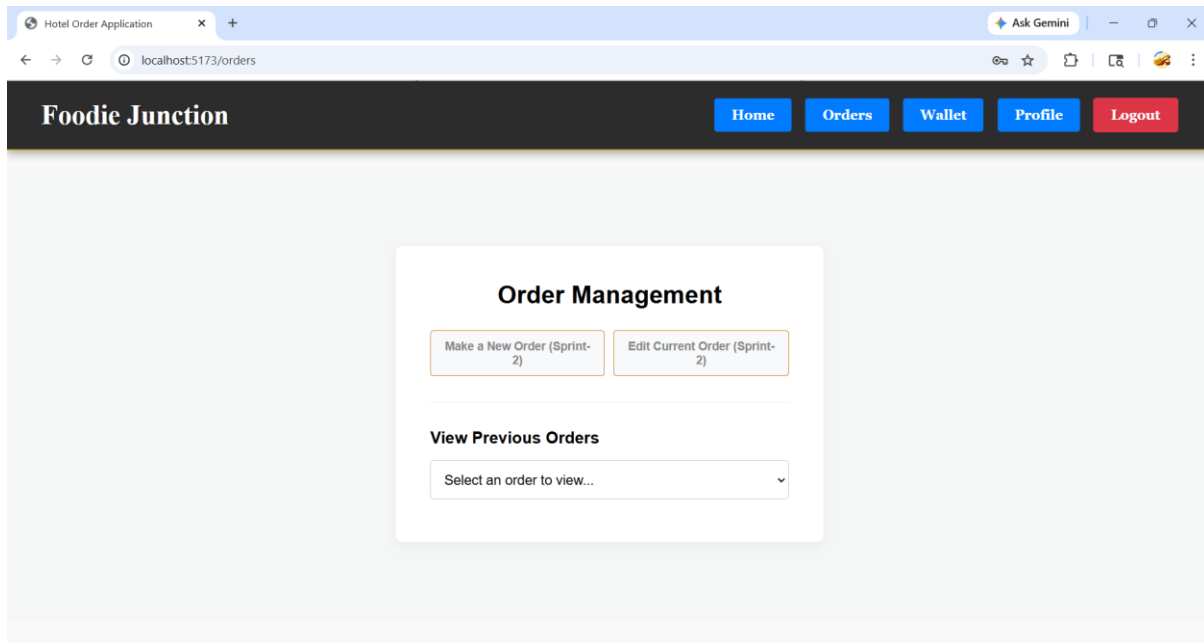

Figure 4: Order Management – A dashboard for users to start new orders, edit current ones, or view their order history.

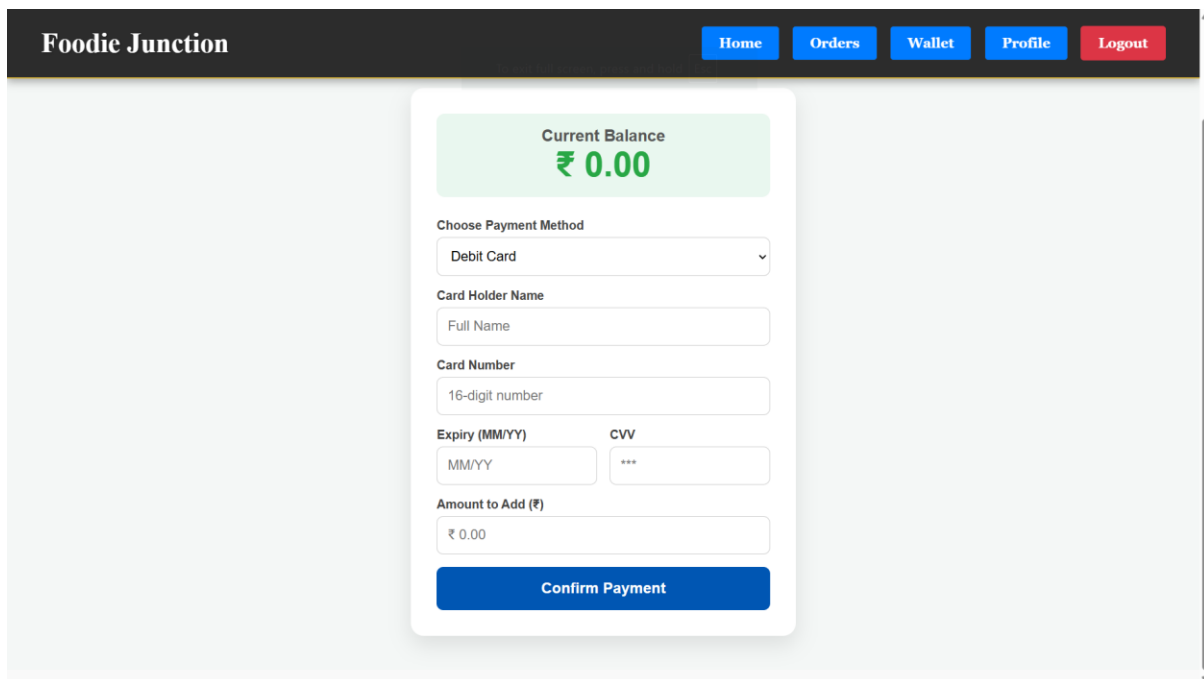

Figure 5: Wallet – A payment interface showing the account balance and fields to add funds via a debit card or credit card.

The screenshot shows the 'Wallet' section of the Foodie Junction application. At the top, a dark navigation bar contains the 'Foodie Junction' logo and buttons for 'Home', 'Orders', 'Wallet', 'Profile', and 'Logout'. The 'Wallet' title is centered below the navigation bar. A central white card displays the 'Current Balance' as ₹100.00 in green. Below this, a 'Choose Payment Method' dropdown is set to 'Debit Card'. The form includes fields for 'Card Holder Name' (Full Name), 'Card Number' (16-digit number), 'Expiry (MM/YY)' (MM/YY), and 'CVV' (***). An 'Amount to Add (₹)' field shows ₹0.00. A blue 'Confirm Payment' button is at the bottom of the card.

Figure 6: Digital Wallet with Updated Balance – A payment interface showing an updated current balance of ₹100.00, providing fields for the user to add further funds via debit card by entering cardholder details and the desired amount.

The screenshot shows the 'My Profile' section of the Foodie Junction application. The dark navigation bar at the top is identical to Figure 6. Below the navigation bar, there are two tabs: 'My Profile' (active) and 'Password Reset'. The 'My Profile' title is centered above a white card. On the card, there is an 'Edit Profile' button. Below the button, the profile information is displayed in a two-column layout: 'FULL NAME' (guna), 'EMAIL ADDRESS' (gunak3143@gmail.com), 'PHONE NUMBER' (- Not set -), 'DATE OF BIRTH' (- Not set -), 'DIETARY PREFERENCES' (Veg), and 'DELIVERY ADDRESS' (- Not set -).

Figure 7: User Profile – A personal dashboard displaying the user's contact info, dietary preferences, and delivery address.

Figure 9: User Profile with Verification Status – An updated personal dashboard displaying user's full name, contact details, and dietary preferences, featuring "Pending KYC" status.

The screenshot shows the 'Foodie Junction' website header with navigation links: Home, Orders, Wallet, Profile, and Logout. Below the header, there are two tabs: 'My Profile' and 'Password Reset'. The 'Password Reset' tab is active, displaying a form titled 'Password Reset' with the subtitle 'Manage your account password'. The form contains two input fields: 'NEW PASSWORD' with the placeholder 'Enter new password' and 'CONFIRM NEW PASSWORD' with the placeholder 'Confirm new password'. At the bottom of the form, there are two buttons: 'Clear' and 'Update Password'.

Figure 10: Password Reset – A security tab within the profile settings used to update and confirm a new account password.

The screenshot shows the 'Foodie Junction' website header. Below the header, there is a form titled 'Reset Password'. The form displays a green success message: 'Reset link successfully sent to your email!'. Below the message, there is an input field containing the email address 'jayaramg1104@gmail.com'. At the bottom of the form, there is a blue button labeled 'Send Reset Link' and a link that says 'Back to Login'.

Figure 11: Forget password – user enters his registered email ID and reset link is sent to the email.

9. SPRINT REVIEW

The sprint review was held on **31-03-2026** and attended by **Dr. Prakash G (Internal Assessor)**, **Dharanidharan B (Product Owner)**, **Sandhiya Sri (Scrum Master)**, **Guna R and G. Jayaram (Developers)**, **Boomika S and Kalaiselvi N (Testers)**.

Before approving or rejecting product backlog items, key decisions from the review were:

- ❖ Completed modules such as Login, Registration, Profile Management, Wallet, and Order Viewing were successfully demonstrated and approved.
- ❖ Pending features such as KYC approval process, Create Order, Edit Order, Forgot Password functionality, and Account Lock mechanism were identified and planned for implementation in Sprint 2.

The sprint review was held on **14-04-2026** and attended by **Dr. Prakash G (Internal Assessor)**, **Dharanidharan B (Product Owner)**, **Sandhiya Sri (Scrum Master)**, **Guna R and G. Jayaram (Developers)**, **Boomika S and Kalaiselvi N (Testers)**.

Before approving or rejecting product backlog items, key decisions from the review were:

- ❖ Completed modules such as **Order Creation, Order Update, Wallet Operations, Payment Processing, and Feedback System** were successfully implemented, tested, and approved.
- ❖ Testing activities including **test case execution, defect identification, and test result analysis** were carried out successfully across all modules.
- ❖ Some functionalities such as **Order Input Validation, Partial Payment functionality, Wallet Deduction Validation, and System Error Handling** were identified with limitations and require further improvement.

10. SPRINT RETROSPECTIVE

The team held a sprint retrospective on **31-03-2026**. It was attended by all team members including the Scrum Master, Product Owner, Developers, and Testers.

Key decisions were:

- ❖ The team worked effectively and completed most of the planned features with good coordination between development and testing teams.
- ❖ Improvements are required in implementing pending features such as KYC approval, security validations, and order management functionalities, which will be addressed in the next sprint.

The team held a sprint retrospective on **14-04-2026**. It was attended by all team members including the Scrum Master, Product Owner, Developers, and Testers.

Key decisions were:

- ❖ The team worked effectively and completed most of the planned development and testing activities with strong coordination between developers and testers.
- ❖ Continuous testing, daily scrum meetings, and collaboration helped in identifying defects and ensuring overall system functionality.
- ❖ Improvements are required in **validation logic, payment handling, and error handling mechanisms** to enhance system reliability and performance.
